Irrigation - Minor - Bellary taluk - Rupanagudi village - Hagari channel - Berm - cutting - Estimate for Rs. 920/- sanction requested.

Ref: G.O. 412 Revenue dated 14th February 1935.

An estimate for Rs. 920/- for the cutting of berms, at Government cost in respect of the Hagari spring channel at Rupanagudi village of Bellary taluk is submitted. The work involved is too much for the ryots to bear its cost and they are therefore unable to do the work under customary labour. The ryots have executed an agreement and are willing to maintain the berms in good condition by Kudimaramat labour, if they are once cut at Government cost.

I request that the estimate may be sanctioned and the expenditure ordered to be met from minor irrigation funds.

The Channel in question is badly silted up. The area now under irrigation is considerably less than the total irrigable area. It is expected that after the silt clearance the supply will improve resulting in an increase of about Rs 578 in the Govt revenue. The ryots are said to be too poor to undertake the work but they agree to the future maintenance of the channel by Kudimaramath. The estimate may be recommended to the Govt for sc

The Coll's suggestion may be approved and this may be closed.
